Learning and Teaching Approach (tasks and activities designed to achieve learning outcomes):

Emphasis is made on the application of the investment principles and techniques developed over the past two years to solve actual problems in property investment. Students’ awareness on the investment market, particularly the real estate investment market, will be enhanced. It will be learnt through case studies, problem-solving exercises, presentation etc. Discussion will be facilitated in small tutorial groups. Lectures, seminars, projects and tutorials will form the basic skeleton for learning the subject.

Assessment strategy (assessment of student performance resulting from learning tasks):

Examination and coursework will constitute 70% and 30% of the overall mark for the subject respectively. The coursework mark will be based on the assignments and presentations. Both examination and coursework assess learning outcomes 1 to 3.
