	<p>In this subject, students have to conduct a health policy analysis in groups and present their findings in the form of seminar presentations. All seminar topics are related to recent developments of health policy and administration in Hong Kong. The assessment criteria include the appropriate application of theories and concepts, critical thinking and analytical skills, and the ability to understand the local policy and administrative contexts pertinent to the policy issues being studied.</p> <p>To encourage team work among students as well as independent learning by students, equal weighting of the final grade is assigned to both group seminar presentation and individual term paper.</p> <p>The assessment methods are appropriate in assessing the intended learning outcomes of this subject.</p>							
Student Study Effort Expected	Class contact:							
	▪	Lecture attendance (24 hours)						72 Hrs.
	▪	Seminar presentation & attendance (12 hours)						36 Hrs.
	Other student study effort:							
	▪	Preparation for seminar presentation and term paper						18 Hrs.
	▪	Preparation for term paper						9 Hrs.
	Total student study effort							135 Hrs.
Medium of Instruction	English supplement by Chinese							
Medium of Assessment	English
