

BRE – Departmental Health, Safety and Environmental Committee

Terms of reference

- (a) to discuss and to adopt and if necessary to formulate health, safety and environmental procedures, practice and guidelines;
- (b) to review health, safety and environmental arrangements within the department regularly;
- (c) to identify substandard conditions and practices and to refer to appropriate units to propose remedies;
- (d) to promote correct health, safety and environmental attitudes of staff and students;
- (e) to discuss health, safety and environmental problems and preventive measures;
- (f) to review and to comment on the inspection reports of the department; and
- (g) to review accidents/dangerous occurrences, to receive investigation reports and make recommendations to prevent their recurrence within the department.
