

Major Consultancy Projects

RCCI has a good track record in providing specialised consultancy services for problems related to construction management and IT applications. Some of these consultancy projects not only enable us to transfer advanced managerial and IT technologies to industry, but also bring in additional resources and opportunities for future research.

Selected consultancy projects:

1. *Accessibility of People with Disabilities in Public Housing Estates.*
2. *Analysis of Partnering in Hong Kong*, commissioned by the Hong Kong Housing Society.
3. *Comparison with International Practice for Contract Administration of Project in Mainland China.*
