

Zahoor, BRE PhD Student, receiving OSH Best Project Award

Mr. Hafiz Zahoor Ahmad Khan, our PhD student, is awarded the Best Project Award 2016 of the Occupational Safety and Health Council (OSHC) for his outstanding research project 'Investigating the Relationship between Safety Climate and Safety Performance in the Construction of Multi-storey Buildings in Pakistan'.

This Best Project Award aims to promote the importance of occupational safety and health to the public, particularly, post-secondary students in Hong Kong.

Zahoor with his chief supervisor Ir Prof. Albert Chan (left)

In 2013, under Ir Prof. Albert Chan's supervision, Zahoor started his PhD study investigating 'the relationship between safety climate and safety performance in the construction of multi-storey buildings in Pakistan' in our Department. Also, the research topics ranging from construction health and safety, risk management, overseas construction to rehabilitation work are of great interest to Zahoor.

Zahoor successfully defended his thesis in the oral examination in December 2016. We wish Zahoor a new chapter of challenges, achievements and happiness!
