

Schuman & Shell Winning 'CIB Sebestyen Future Leaders Award'

'CIB Sebestyen Future Leaders Award 2016' goes to our PhD students, Ms Schuman Lam (Principal Investigator) and Mr. Shell Li (Co-investigator).

The winning proposal is 'Empirical Study on Integrated Design & Delivery Solutions (IDDS) by Developing a CIB Interactive Virtual Community' which will be executed in collaboration with CIB Priority Theme Group: IDDS – Integrated Design & Delivery Solutions and UiTM CIB Student Chapter, Malaysia.

This proposal is to develop a framework and the action plans for setting up an interactive online platform of integrated solutions for CIB members and CIB Student Chapters by borrowing the concept of IDDS. The platform is internet-action-application-based, with worldwide student chapters as the regional drivers and mediators who will motivate all the stakeholders to interact and communicate with each other on a regular basis so that possible collaboration on projects will be facilitated.

Schuman emphasizes, "The advice from Prof. Francis Wong, the Former Honorary Advisor for the PolyU CIB Student Chapter, helped a lot in the completion of this winning project. Meanwhile, Prof. Ni Meng who is the current Honorary Advisor is very supportive of the Student Chapter. We feel very grateful for all that they have done."

Congratulations to Schuman and Shell! Wish you every success in 2017!
