

Dr Amos Darko honoured with Green Talents Award by German Federal Ministry of Education and Research

Huge congratulations to Dr Amos Darko, a PhD graduate and currently a Research Assistant Professor of our Department, on being honoured with a Green Talents Award in the Green Talents Competition 2020 organised by the German Federal Ministry of Education and Research!

Dr Darko's research efforts focused on the adoption and promotion of green building technologies in the developing world, contributing to a novel 'Implementation Strategy' in the end. In the face of the fierce competition from over 580 talents from 87 countries, Dr Darko impressed the jury by his research on a highly relevant issue especially for developing countries.
