

Prof. Heng Li's success in ITF Application and HK Scholars Program 2020

A huge round of applause to Prof. Heng Li, Chair Professor of Construction Informatics, who will be receiving a grant of over HK\$7 Million from the Innovation and Technology Fund (ITF) for his project 'A Computer Vision-enabled Digital Twin for Construction Resource and Progress Management'.

Meanwhile, Prof. Li's Hong Kong Scholar candidate, Dr He Ping, was successfully selected for the Hong Kong Scholars Program 2020. In November 2020, Dr He will be appointed as a Postdoctoral Fellow for two years for the project entitled 'Synthesis of Structural Health Monitoring via Distributed Filter of Sensor Networks'.

We wish Prof Li every success in both projects!
