The undergraduate course in Building and Real Estate at PolyU inspired my strong interest in the real estate industry and equipped me with a solid foundation for my postgraduate study and career. Now, I am working in the Investment Department of Savills, providing expertise for those active in the commercial real estate market, whether it be for investment, redevelopment or owner-occupation needs. This includes the acquisition and disposal of properties ranging from individual investments to property portfolios, of any size. It is quite an interesting and challenging job for me. Many thanks, BRE!

Chan Wai Yan, Vivien

I treasured the opportunity I received from PolyU and BRE to join an exchange programme to study at the Department of Architecture at Deakin University in Melbourne, Australia, for about 6 months. The experience broadened my horizons and extended my international network, which was of great benefit when I worked as a project manager and had to hold conference calls with client representatives in various places.

With BRE's support I was also able to join the Preferred Graduate Programme to undertake summer internships at Nanjing Construction Bank and the largest developer in Xi Shan in 2009 and 2010. Working in a state-owned company and experiencing the work environment in China were crucial to my career development and life.

Leung Chin Pak, Patrick

Studying property management at PolyU was an amazing and fruitful experience because of its comprehensive coverage, quality teaching and practical training. I chose property management without hesitation once I knew that it would give me a promising career and many opportunities to develop lifelong skills.

Through my three years of study, I was well prepared to enter the workplace. Participation in Work-Integrated Education equipped me with practical property management and personal skills when tackling building defects and handling customers' enquiries. I am also so thankful to BRE for offering me the chance to be an exchange student in Australia, which was a very memorable experience. After graduation, out of over 1,900 candidates I was very fortunate to be chosen as a Management Trainee at the Link, and I believe my time at PolyU prepared me for the challenges I now face.

Tam Chung Yin, Ivy
